## **Work Experience**

### **Denver Mental Health Collective—Denver, CO**

**November 2022—present**

*Therapist*

- Conduct individual and couples psychotherapy utilizing ACT, DBT, CBT, and Gottman modalities
- Educate clients on diagnoses and varying treatment options
- Work with clients to develop treatment plan

### **PsychGo—Denver, CO**

**May 2022—September 2022**

*Therapist and Clinical Manager*

- Conduct individual and couples psychotherapy utilizing ACT, DBT, and CBT modalities
- Provide individual supervision for licensed and unlicensed clinicians (LCSW, LPC, LSW, and LPCC), focusing on ethics, client consultation, staff development, and problem solving on a weekly basis
- Lead group supervision for all clinicians focusing on client consultation and training on a bi-weekly basis
- Act as liaison between clinical staff and the practice owner to ensure that staff have an advocate and are getting their needs met within the business
- Provide ethical and clinical recommendations to the practice owner to support both clinicians and clients

### **Trilogy Behavioral Healthcare—Chicago, IL**

**March 2020—May 2022**

*Assessment, Intake, and SOAR Team Leader for the Comprehensive Class Member Transition Program (CCMTP)*

- Provide weekly clinical supervision for eight assessor/intake specialists to offer support, advocacy, and problem-solving regarding client interaction, completing assessment tools, and managing other team responsibilities for clients with serious mental illnesses in nursing facilities
- Provide weekly supervision for SOAR staff to ensure that records are analyzed and are advocating for clients without income to get approved for social security benefits
- Lead weekly team meetings to ensure that team is successfully implementing new processes from the state of Illinois and obtain new information for the program
- Assisted program manager in building a new assessment, intake, and SOAR department as the pandemic began and successfully made an in-person program function virtually
- Manage relationships with nursing facility staff and implementing best practices for meeting with clients
- Complete any assessments, intakes, or SOAR tasks as needed
- Continue to provide weekly telehealth psychotherapy sessions for clients experiencing serious mental illness while utilizing CBT and DBT theories of practice to maintain clinical acuity while in a management position

**Trilogy Behavioral Healthcare—Chicago, IL****October 2016—March 2020***Intake Specialist*

- Covered walk in hour shifts, outreached individuals in the community, and met with individuals in skilled and IMD nursing facilities to ensure that prospective clients were either opened to Trilogy's services or referred to more appropriate services in the community
- Assessed new clients for appropriate level of care and ensured timely and seamless flow of new clients into Trilogy's health system while determining diagnosis and potential risk
- Educated new potential clients about mental illness and communicated expectations regarding the intake process, agency provided services, and eligibility requirements
- Conducted mental health assessments and Illinois Medicaid Comprehensive Assessment of Needs and Strengths to ensure that clients' history and symptoms are well documented for present and future use
- Provided individual therapy to clients using CBT and DBT theories of practice in addition to any intake responsibilities

**Trilogy Behavioral Healthcare—Chicago, IL****June 2015—October 2016***CST Recovery Counselor*

- Provided case management services for individuals with serious mental illnesses and co-occurring substance abuse issues
- Assisted clients in making sure that their medications were administered at the correct time and dosage
- Provided individual therapy to one client using CBT theories of practice
- Assisted clients in using their coping skills in times of crisis
- Assisted clients in forming skills for independently managing their own apartments and learning how to integrate into the community

**Mercy Hospital Psychiatric Inpatient—Chicago, IL****September 2014—May 2015***Social Work Intern*

- Conducted psychosocial assessments on assigned patients that consisted of adults with severe mental illnesses with co-occurring substance abuse disorders
- Co-lead psychosocial, CBT, and DBT based therapy group with LCSW supervisor
- Co-lead psychoeducation/wellness group with fellow social work intern
- Attended patient staffings with psychiatrists, nurses, and other social workers to create a multidisciplinary care system in each of our patient's progress and needs
- Discussed psychiatric aftercare needs for patients upon their discharge from the hospital
- Worked with patients and their families on psychiatric and environmental planning

**Salvation Army Stop-It—Chicago, IL****January 2014—August 2014***Social Work Intern*

- Organized portions of the 4th annual Cook County Human Trafficking Task Force conference
- Provided direct service case management for a caseload of survivors of human trafficking such as housing, education, employment, financial aid, and legal resources
- Educated the public, potential clients, and law enforcement on the definitions of human trafficking and the best way to get resources
- Managed hotline calls from families, law enforcement, the public, and potential clients offering information about Stop-It's services and other resources in the community
